The Safety Net Clinic Referral Directory is sponsored by the Milwaukee Health Care Partnership in collaboration with the Free and Community Clinic Collaborative (FC3)

The directory's content was collected and prepared by IMPACT, with design by Third Sector Creative.

We are grateful to the United Way of Greater Milwaukee and Waukesha County for funding support.

MILWAUKEE HEALTH CARE PARTNERSHIP

January, 2019

The *Safety-Net Clinic Referral Directory* is a comprehensive inventory of the free and community clinics, community health centers and other safety net providers that serve low-income, uninsured and vulnerable populations in Milwaukee County.

It contains essential information about nearly 70 primary care, dental, mental health and specialty clinics – providing a variety of information including hours, payment practices, languages spoken, and types of clinical services and screenings offered.

The directory is a resource for hundreds of providers, care managers, health and human service professionals and IMPACT 2-1-1 community resource specialists, in their support to individuals seeking free and low-cost health care services.

The referral directory is also available online at www.mkehcp.org and www.impactinc.org. We recognize that the scope of services available through these clinics may change from time to time and encourage users to confirm information directly with community clinic partners prior to making a referral. For the most up-to-date information on community resources, please visit impactinc.org or dial 2-1-1.

Joy Tapper, Executive Director
Milwaukee Health Care Partnership

John Hyatt, President & CEO
IMPACT

Note on Information in this Directory

Information in this Referral Directory was provided by staff and volunteers at the clinics included.

Clinics were given multiple opportunities to verify that information was entered correctly. If a clinic did not verify the information in time for print, it is noted at the bottom of the page.

Deliberate efforts were made to reduce errors or omissions, but if data errors are found in this directory, please report them to resourcechange@impactinc.org

Medical Clinic Designation:

Free or Charitable Clinic indicates a clinic that provides care free of charge or on a sliding fee scale.

FQHC indicates a clinic that is a Federally Qualified Health Center.

A **Primary Care Medical Home** also known as a 'health home':

- is open > 30 hours / week
- maintains a health record for each patient
- maintains after-hours call coverage when the clinic is closed
- provides access to specialty medical care at the clinic or through formal referral relationships
- provides and manages medications

A **Dental Home**:

- is open > 30 hours / week
- maintains a dental record for each patient
- provides access to specialty dental care through formal referral relationships

The **Specialty Access for the Uninsured Program (SAUP)** provides specialty medical care for low-income and uninsured adults who are "established patients" at a participating clinic.

Participating SAUP clinics provide primary care, medication access, public benefits counseling, insurance enrollment assistance, and navigation and social supports. Each clinic is paired with a health system that provides a network of specialists for diagnostics, outpatient services and in-patient care. All usual and customary specialty consultation, testing and treatments are covered under SAUP, with no out-of-pocket cost to patients at or below 200% FPL and do not qualify for public insurance benefits.

For the most up-to date information on any clinic in this guide, please visit impactinc.org or dial 2-1-1.

General Description of Services

The Greater Milwaukee Free Clinic (GMFC) provides primary medical care to low-income, working, uninsured patients. GMFC does not treat or duplicate services that are available through other agencies. Patients will be referred when appropriate. When available, the clinic may provide medications or may write prescriptions for affordable medications from local pharmacies; medications for chronic conditions may be provided in certain circumstances on a temporary basis. Physicians and staff of the GMFC are volunteers from the community. There is limited support to provide lab work and x-rays; the clinic reserves ordering these for difficult to diagnose cases.

Information is accurate as of November 2018. For the most up-to-date information, please visit the IMPACT 2-1-1 Online Resource Directory at impactinc.org or dial 2-1-1.

- Call to schedule an appointment

Languages: English

Patient Eligibility: All ages

Payment Practices: Everyone is charged a fee for service; the clinic will provide patients with a form to submit to their insurance carrier for reimbursement

Required Documents: Call to inquire

General Description of Services

Preventive dental care is available to MATC students, their children and the community at cost. Patients are expected to have a different dental home; the clinic does not diagnose. Services include a range of preventive care, performed by Dental Hygiene program students under the guidance of Dental Hygiene faculty members. Due to the instructional nature of the services provided, please plan adequate time for completion of each of the requested services. The clinic provides dental hygiene services including: dental prophylaxis, X-rays, sealants, and fluoride treatments. X-rays will not be released to patients until their dental hygiene treatment is complete. The clinic is closed during winter, spring and summer breaks.

Information is accurate as of November 2018. For the most up-to-date information, please visit the IMPACT 2-1-1 Online Resource Directory at impactinc.org or dial 2-1-1.
