

Milwaukee Health Care Partnership, United Way of Greater Milwaukee & Waukesha County
Mental Health Improvement Fund Promotional Toolkit 2024

Staff Email/Newsletter Copy

Make sure everyone has the mental health care they need to thrive

Donate to the Mental Health Improvement Fund

Every Milwaukee child and adult deserves an equal opportunity to thrive. That includes having access to high-quality mental health care close to home. The Milwaukee Health Care Partnership (MHCP) / United Way Mental Health Improvement Fund (*previously the Health Improvement Fund*) is **your opportunity to connect people of all ages to affordable mental health care services that meet their needs – in their community.** Mental Health Improvement Fund dollars also provide access to navigation and other support services that help people get started on their path to finding care.

Your contributions to the MHIF will support organizations in the community that provide:

- Mental health services for children, adults, and families of all ages
- Outpatient mental health services, like ongoing therapy or help with medication
- Diagnostic treatments, like testing or screening for certain conditions
- Mental health services in creative locations, like community centers or at home
- Support in helping people find and connect with the mental health services they need

As you consider where to direct your United Way contributions in 2024, **we ask that you consider giving to the Mental Health Improvement Fund.**
